Notes:

1. Student FTE is calculated using headcount method: The full-time equivalent of the institution's part-time enrollment is estimated by multiplying all part-time students by 1/3. These are then added to the full-time enrollment headcounts to obtain an FTE for all students enrolled. 2. First-generation students are identified as those students whose parents never completed college. Based on the information provided by the student in the FAFSA form. 3. Underrepresented minority are african american, latino and native american. 4. Excludes students enrolled in Israel College and students enrolled in Individual Video Courses
