Password: uneatw15

Online tickets can be purchased up until midnight prior to the day of arrival.

Program dates: December 26, 2016 – April 2017

Attitash Mountain Resort, located in the heart of the White Mountains, spans 67 trails over two mountain peaks. Known for its snow quality with one of New Hampshire's most powerful snowmaking systems and outstanding grooming, Attitash is the quintessential resort in the Mt. Washington Valley for skiing, riding, learning programs, on-snow events and entertainment.

Wildcat Mountain's unique proximity to Mount Washington and northwestern exposure subjects the mountain to the greatest amount of snowfall in the area, averaging more than 200 inches annually. Access 48 trails and 225 skiable acres from our 4,000 foot summit in six minutes on the Wildcat Express Quad. Experience classic New England skiing and riding this winter at Wildcat Mountain!

Also, as an added bonus our corporate partners can save up to 15% on lodging at the Attitash Grand Summit Hotel and Conference Center, the only ski-in, ski-out hotel in the Mount Washington Valley (not available during the holiday dates).
