Strategic Planning Open Sessions

Dear UNE Community Members,

Thank you all for making arrangements in your busy schedules to meet with our strategic planning consultants this week on Monday, January 22 and Tuesday, January 23. We had a terrific turnout of faculty, professional staff and students on both campuses. In addition to the open sessions, our advising team got to hear from the deans, task force chairs, student affairs leaders, the professional staff executive committee, an online faculty and staff group, and our faculty assembly leaders, just to name a few. Of course, this will be our plan and the consultants are guiding us to keep us on track, so they met with the President and the Strategic Planning Coordinating Committee as well.

We are pleased to report that the emails are coming in from all of our stakeholders. We encourage you to send in additional thoughts via the link on the website and stayed tuned for updates as we continue this important process in collaboration with all of you.

All the best,

UNE Strategic Planning Coordinating Committee
Ellen Beaulieu, Chair
