Educational Objectives: At the conclusion of this program, participants should be able to:

Federal Law (ACPE # 0837-9999-14-060-L03-P/T): Describe federal laws pertaining to the dispensing of controlled substances and fraud awareness.

Describe in detail the laws and regulations for federal detox programs. Discuss the Combat Methamphetamine Epidemic Act of 2005 and Methamphetamine Prevention Act of 2008. Explain the N.H. State laws as they apply to specific time lines pertaining to pharmacists and legal limits.

Grassroots Involvement (ACPE #0837-9999-14-062-L03-P/T): Describe the policymaking process, including how a bill becomes a law. Discuss ways to meaningfully communicate with policymakers. Describe the power of grassroots involvement in the pharmacy industry.

Multiple Sclerosis: Treatments Options and the Role of New Agents (ACPE #0837-9999-14-063-L01-P/T): Describe the pathophysiology of multiple sclerosis (MS)

Explain the complications associated MS. Discuss efficacy and adverse effect profiles for relapsing-remitting MS treatments. Identify measurable goals of disease modification therapy in MS. Evaluate the advantages and disadvantages of MS medications available.

Lyme Prophylaxis (ACPE #0837-9999-14-061-L01-P/T): Describe the incidence, prevalence, and transmission of Lyme disease nationally and locally from an infectious disease and public health perspective. List the acute symptoms and potential long-term sequelae of Lyme disease. Identify specific methods for reducing the risk of acquiring Lyme disease, including ways to decrease tick exposure and the proper use, efficacy, and toxicity of post-exposure doxycycline. Explain which patients are appropriate candidates for pharmacist initiated post-exposure doxycycline treatment under collaborative practice agreement. Support and participate in future endeavors for enhancing public access to Lyme prophylaxis in the pharmacy setting.

CPOE (ACPE #0837-9999-14-059-L05-P/T): Identify at least 5 advantages of using computerized provider order entry (CPOE) and e-prescribing systems. Discuss factors that contribute to medication errors in CPOE. Discuss strategies to reduce the likelihood of medication errors related to CPOE.
