ADVANCE CARE PLANNING/END OF LIFE CARE

UNE MAINE GEC, PRESQUE ISLE, ME

10/31/2013
CHARLOTTE A. PAOLINI, D.O.,
CMD
CHAIR, CUSOM DEPARTMENT OF FAMILY MEDICINE
OCTOBER 16, 2013
10/31/2013
OBJECTIVES

• To understand the value of an Advance Directive & its impact on transitional care.
• To identify which life transitions should precipitate the completion of an Advance Directive.
• To distinguish b/t Health Care Proxy & DPOA.
• To distinguish b/t DNR, DNI, DNH, & CMO.
• To understand the physician’s role in advance care planning.
• To b/c familiar with resources for advance care planning.
ADVANCE CARE DIRECTIVES:

- a legal document, consistent with state law, that helps to ensure that one’s health care wishes will be carried out;

- may be an oral communication, verbally expressed to family members or to a health care agent.
TWO MAIN TYPES OF ADVANCE DIRECTIVES:

• Medical POA/Health Care Proxy

• Living Will/Treatment Directive
MEDICAL POA:

• A written document in which a person (Agent) is named to act as health care proxy in the event one is no longer able to speak for him/herself.

• Cognitive/physical decline resulting in ‘lack of capacity’ as determined by the physician.
LIVING WILL:

• Documents personal directives for EOL care in the event that decision-making or communication abilities are lost.

• Includes directives for: IVF hydration, parenteral/enteral nutrition, CPR, mechanical ventilation, hemodialysis, stopping life-prolonging treatment.
QUALIFICATIONS FOR A HEALTH ARE PROXY/AGENT:

• Meets legal criteria of the state
• Willing to speak on the patient’s behalf
• Able to act on the Principal’s wishes
• Readily available
• Understands what is important to the Principal
• Trustworthy
• Able to discuss sensitive issues
QUALIFICATIONS (CON’T):

• Able to handle conflicting opinions b/t family members/friends/health care providers
• Can be a strong advocate in the face of an unresponsive physician or institution
• Will be available as long as the Principal is alive
STATE RULES DISQUALIFYING FOR HEALTH CARE PROXY:

• Less than 18 years of age
• Person is Principal’s health care provider or an employee of the health care provider
• Person is the owner of the health care facility where the Principal resides
SURROGATE DECISION MAKING:

In North Carolina, a surrogate may make health care decisions for an adult who doesn’t have a designated Proxy/Agent or Guardian

Order of choice:
- Spouse
- Adult child
- Sibling
- Grandchild
- Other
WHEN TO CREATE OR CHANGE AN ADVANCE DIRECTIVE:

Any major change in status

Five “D’s”:

- Decade
- Death
- Divorce
- Diagnosis
- Decline

Medicare Annual Wellness Visit
OBTAIN AN ADVANCE DIRECTIVE FORM:

- Local hospital’s social service, patient education, admissions, or chaplaincy departments
- National Hospice & Palliative Care Organization (see “Resources” page)
- Download a legal form for any state from:
  - www.caringinfo.org
- Five Wishes (see “Resources” page)
- American Bar Association (see “Resources” page)
WHAT TO DO WITH THE ADVANCE DIRECTIVE:

• Original is kept with the individual (or Proxy) & stored where it can be easily found

• Copies to Proxy, health care provider, hospital, others

• Carry an Advance Directive wallet card

• Notarized version if traveling out of state
PHYSICIAN ORDERS FOR LIFE-SUSTAINING TREATMENT (POLST)

- DNR
- DNI
- DNH
- CMO
- Hospice Care
ROLE OF ADVANCE DIRECTIVES & TRANSITIONAL CARE:

• Case scenario

• Provides clear direction for health care personnel regarding EOL care

• Keeps care consistent with patient’s wishes

• POLST provides clear and mandatory documentation

• Needs to accompany the patient during transitions when the Proxy/family are unavailable
IN CONCLUSION:

“Modern medicine may have made dying harder, but it has also given us the gift of time— the time to prepare, the time to heal family wounds, the time to bring psychological and spiritual closure. If we can take advantage of it, it has given us something unique in history: the time to tie up loose ends and orchestrate a death that is good.”

Marilyn Webb, *The Good Death*
