Educational Objectives: At the conclusion of this program, participants should be able to:

The Link Between Obesity and Hormones (ACPE # 0837-9999-15-083-L01/P/T): Review the present knowledge on obesity and the pathophysiology of the disease; Review the present comprehensive factors needed to fully address a patient when dealing with weight issues; Review the current medications available and FDA approved for the treatment of obesity.

Target-Specific Oral Anticoagulants and Bleeding—What is the Risk and How do we Manage it? (ACPE # 0837-9999-15-081-L01/P/T): Review the pharmacology and clinical utility of Target-Specific Oral Anticoagulants (TSOACs) available in the United States; Discuss the incidence of bleeding with TSOACs and recognize patient-specific factors that may increase bleeding risk; Describe management strategies for TSOAC-associated hemorrhage; Review potential anticoagulants and reversal agents currently undergoing research in clinical trials.

Postherpetic Neuralgia: Getting to the Root of this Painful Legacy (ACPE # 0837-9999-15-082-L01-P/T): Describe the etiology and pathophysiology of herpes zoster and postherpetic neuralgia; Identify signs and symptoms of herpes zoster and postherpetic neuralgia; Discuss acute treatment options for the individual with herpes zoster and postherpetic neuralgia.

NH Board of Pharmacy: Update and Review of pending rule changes for 2015 (ACPE # 0837-9999-15-084-L03-P/T): Update pharmacists and technicians on rules concerning Ph.300, Ph.400 and Ph.700 pending and approved changes concerning pharmacy practice; Discuss issues involving technician training and 503 A and B compounding issues as well as what the future holds for pharmacy practice.
