

CENTER FOR EXCELLENCE in the  
**NEUROSCIENCES**

S E M I N A R S E R I E S

**Huntington's Disease,  
Cannabis, and All the  
Pharmacology in Between**

**Eileen Denovan-Wright, Ph.D.**  
*Professor, Associate Dean of Graduate Studies  
Dalhousie University*

**Robert Laprairie, M.S.c., Ph.D. Candidate**  
*Department of Pharmacology  
Dalhousie University*

**Thursday, December 4<sup>th</sup> 2014**  
12:00-1:00 p.m.

Alfond 304  
Biddeford Campus

*Lunch will be Provided*

Hosted by: John Streicher, Ph.D.

Sponsored by: The UNECOM Biomedical Sciences Department

**Dr. Denovan-Wright** is a Professor in the Department of Pharmacology and Associate Dean of the Faculty of Graduate Studies at Dalhousie University. Eileen's current research interests include the pharmacology of cannabinoids, dopamine, and endothelin, transcriptional regulation, and Huntington's disease. She is currently a member of multiple professional research societies, including the Canadian Society for Neuroscience and an executive board member of the Canadian Council on Animal Care. Eileen obtained her BSc Hon in Biology and PhD from Dalhousie

**Robert B Laprairie** is a PhD student in the Department of Pharmacology at Dalhousie University. He has published 13 manuscripts in peer-reviewed journals, 24 conference abstracts, and 3 patents. Robert's current research focuses on applying the pharmacological principals of biased agonism and allosteric modulation to the development of novel cannabinoid-based therapeutics. He is the student representative for the International Cannabinoid Research Society and the American Society for Pharmacology and Experimental Therapeutics - Neuropharmacology Division. Robert obtained his BSc Hon in Biochemistry from the University of Saskatchewan and his MSc in Pharmacology and Neuroscience from Dalhousie University.
