- 1a. Forty-five employees who work strictly in University Health Care associated with medical school.
- 1b. Sixty-six temporary employees hired on an ad-hoc or occasional basis to meet short-term needs.

2. Staff FTE is calculated using headcount method: The full-time equivalent of the institution's part-time staff is estimated by multiplying all part-time staff by 1/3. These are then added to the full-time staff headcounts to obtain an FTE for all staff during fall.
