

INNOVATION FOR A HEALTHIER PLANET

Office of Assessment

ACADEMIC PROGRAM REVIEW SCHEDULE

Updated March 2026

At the University of New England, academic programs are regularly reviewed for quality assurance.

The regular program review process comprises three tracks. (1) Programs with specialized accreditation undertake a review the semester following their full reaccreditation review. (2) Programs without specialized accreditation undertake a review following a seven-year cycle. (3) Programs with specialized accreditation that undergo a reaccreditation review every eight or more years also complete an internal review at the midpoint of their full reaccreditation review.

Newly developed programs undergo a three-year new program review following their third year in the catalog.

NOTATIONS:

¹ Following the *Academic Program Guidebook: Guidelines and Procedures for Academic Programs with Specialized Accreditation*

² Following the *Academic Program Guidebook: Guidelines and Procedures for Academic Programs without Specialized Accreditation*

³ Midpoint internal program review between full reaccreditation review

⁴ Following the three-year new program review process as detailed in *Procedures for Developing New Programs and Revising Existing Programs*
