

Dear Students,

We are writing with updated information about COVID-19 testing at UNE during the next week. Please review the following schedule as this supports our plan to resume in-person classes on Tuesday, April 6.

### **STUDENTS WHO ARE NOT VACCINATED**

#### ***Friday***

On **Friday, April 2**, all undergraduate students who have been tested by the University during the shelter-in-place, either on campus or in your local rental as a commuter, will be tested in the **Harold Alfond Forum from 10:00 a.m. – 1:00 p.m.** Students can report to the testing site at any time during those three hours to receive their test. **Please note: testing will end precisely at 1:00 p.m.**

#### ***Monday and Tuesday***

Only students who have left campus and returned home, including those who may go home this weekend, will go through the onboarding testing process on **Monday, April 5 and Tuesday, April 6 between 8:00 a.m. – 12:00 p.m.** in the Harold Alfond Forum. Once students are tested on campus, they will receive a bracelet, which will be needed to access classes, campus facilities, etc.

Students must make an appointment at <https://une.medicatconnect.com>. You will be required to upload a negative PCR, rapid PCR, or rapid antigen test to Medicat within 72 hours of returning to campus. Students are advised to bring a copy of their test result in case it is needed.

### **STUDENTS WHO ARE VACCINATED**

Students who are fully vaccinated (14 days out from receiving their final COVID-19 vaccine) do not need to test, but do need to make an appointment for Monday or Tuesday (to occur at the Harold Alfond Forum) at <https://une.medicatconnect.com> to verify your vaccination status and receive your bracelet. You must also upload your vaccination status to Medicat in advance and bring a copy in case it is needed.

Students in **clinical WCHP programs** (Nursing, Dental Hygiene, Applied Exercise Science, and Athletic Training) must immediately upload their vaccine status to **Medicat** in order to verify your vaccine status. Your program director will follow up shortly with instructions pertaining to the retrieval of your bracelet.

Student athletes have different testing requirements, and will therefore receive a separate message with instructions from Athletics.

### **STUDENTS WHO HAVE TESTED POSITIVE IN LAST 90 DAYS**

Students who have tested positive for COVID-19 in the last 90 days do not need to test, but must make an appointment for Monday or Tuesday at <https://une.medicatconnect.com> for verification and clearance at the Harold Alfond Forum to receive your bracelet. You should also confirm that your positive test result has been uploaded to Medicat in advance and bring a copy in case it is needed.

### **STUDENTS IN QUARANTINE/ISOLATION**

Students who are currently in quarantine or isolation will receive an individualized communication about their return to in-person class. If you have tested positive or are a contact of someone who has tested positive and have not notified the University, please do so by completing the form found at the following link: **COVID Reporting Form**

### **OTHER UPDATES**

Food deliveries will be permitted on campus beginning today (Wednesday). To minimize traffic through campus, we are establishing two locations where meals can be delivered. Please instruct the delivery service to meet you in front of Sokokis or the front of the Campus Center.

Students who have received their bracelet and need to retrieve a package from the Mailroom may do so.

We ask that you be more vigilant than ever in adhering to Onward protocols during this time. Please wear your masks, stay socially distant, and enjoy time outdoors.

Sincerely, Sincerely,

Jen Deburro, M.Ed.  
*Dean of Students, Vice President for Student Affairs*

Paul Berkner, D.O., FAAP  
*Medical Director, Student Health Services*
