Maine Medical Center
Grand Rounds

Title:  Tackling ID Folklore: Trimethoprim-Sulfamethoxazole for Streptococcal Skin and Skin Structure Infections and Thrice-Daily Aminoglycoside for Infective Endocarditis

Schedule:  October 4, 2016
Dana Center Auditorium
2:00-3:00 pm

Audience:  Accredited for Pharmacists and Technicians
Other interested health care professionals welcomed

Credits:  1 Contact Hour –knowledge based
0837-9999-16-105-L01-P/T

Presenter:  Minkey Wungwattana, PharmD., BCPS-AQ ID
Clinical Pharmacy Specialist- Infectious Diseases
Maine Medical Center

Learning Objectives:
After attending this program participants will be able to:
1. State why group A streptococcus (Streptococcus pyogenes) was historically considered to be resistant to trimethoprim-sulfamethoxazole
2. Identify patients who are candidates for receiving trimethoprim-sulfamethoxazole for skin and skin structure infections
3. Recognize a patient who may be receiving an inappropriately dosed aminoglycoside regimen for the treatment of infective endocarditis
4. Design individualized dose-frequency aminoglycoside regimen for treating infective endocarditis

Requirements for Receiving CE Credit:
• Successful completion of post-presentation questions
• Participation at live program
• Complete program evaluation form

Statement of Disclosure:  Disclosure will be made on the day of the program regarding any interest or affiliation a speaker may have with a supporting organization
