- Free yearly membership to the YMCA
- One-on-one teaching by faculty

Samaritan Medical Center is located in the beautiful Thousand Islands Region of Upstate New York. The St. Lawrence River, Lake Ontario and many local lakes and rivers make this a beautiful place to live and work. Ft. Drum is located nine (9) miles away, and Samaritan Medical Center is the hospital for all of the military men and women as well as their dependents.

There are no competing residencies such as Pediatrics or Ob/GYN, enabling the Residents to have all of the training experiences in Pediatrics, Ob/GYN, Geriatrics, as well as the other disciplines. All disciplines are taught one on one by an attending physician, and the daily Noon Conferences are taught by attending physicians on a variety of specialties.

OMT is demonstrated, encouraged and required. Weekly didactic sessions and OMT clinics are held in order for you to be able to increase your skills. A full-time Director oversees the Program and encourages the Residents to deliver excellent cost-effective health care while establishing a relationship with the patient and the family.

Samaritan Medical Center is undergoing a \$4.5 million construction project which will provide a new ER, OR, patient rooms and medical offices. Completion is expected by the end of 2010.

The goal of the Program is to produce a Family Medicine physician to whom we would immediately entrust our own family members and who is someone we would actively seek to employ.
