St. Elizabeth's Medical Center offers you an unopposed Family Medicine Residency Program in a community-hospital setting in Upstate New York, close to the Adirondack Mountains. We serve a very diverse patient population, being located only a few blocks from the Refugee Center. Weekly OMT sessions are conducted by a physician Board certified in NMM/OMM.

The Program offers full service Family Medicine teaching experience to include Obstetrics, Inpatient, Ambulatory and Osteopathic Care. We have several Osteopathic Family Medicine physicians who are supportive mentors.

We encourage you to come and learn first hand the multiple learning environments and facilities to support your graduate medical education and to enjoy exceptional recreational opportunities and camaraderie.

Outside rotations are available at St. Peter's Hospital in Albany, NY.
