

Student Health Checklist**FOR STUDENT USE ONLY****Mandatory Requirements for all UNE students in the HEALTH PROFESSIONS PROGRAM**

Please refer to the University of New England's Immunization Compliance Policy available on the Student Health Services webpage. <http://www.une.edu/studentlife/shc/>

Since health professions programs spend clinical time in the community, the University of New England has established requirements which may exceed CDC recommendations.

Our policy is designed to ensure maximum protection for both students and clinical sites.

It is at the discretion of the University, not an outside provider, that these requirements be met.

Titers: Please provide laboratory documentation for ALL titers submitted.

Hepatitis B surface antibody titer

Vaccinations:

Meningococcal – required for students living in residential housing or other UNE approved congregate living situations

Tdap (Please do not confuse with DTaP, Td, or Dt)

Hepatitis B series of 3

Varicella series of 2 or a Varicella Titer

MMR Series of 2 or MMR Titer

2 Step TB Skin Test

Two step PPD is defined as PPD testing on two separate occasions separated by at least two weeks and within one year.

Physical Exam

Current physical exam within 1 year of start date.
