

University of New England Employee & Student Benefit Program Account # 1469611

Sullivan Tire & Auto Service has designed an Employee and Student Benefit Program specifically for employees, students, & associates of **University of Maine** and their family members!

***Oil & Filter Change * Tire Rotation * Comprehensive Vehicle Inspections * Engine Diagnostics
* Alignment Service * State Inspections * Brakes**

THE PROGRAM

A special account number – **1469611** -- has been assigned to the **University of New England** employee/student account. This account number easily identifies employees, staff members, and students with their vehicles for specific prices and discounts. This account can only be used for repairs with cash, check or credit card payment. ***Employee invoices cannot be mistakenly charged to a company account.**

This benefit program is offered at over 67 Sullivan Tire & Auto Service locations throughout New England and provides a **10% discount** on all parts and labor. Tires are always at an everyday low price and receive no discount. Once an employee's and/or student's vehicle is profiled in our system, an alert will notify any Sullivan Tire location that this customer is enrolled in the program and the discounts will be calculated automatically.

This is a valuable benefit that **University of New England** shares with its employees, staff members, faculty, students and their families offering them consistent pricing on tires and auto service that takes advantage of Sullivan Tire's 60 years of automotive expertise in the New England area.

EMPLOYEE & STUDENT BENEFIT

All that's needed when an employee/student brings their vehicle to Sullivan Tire is to announce their **Special Program** status with **University of New England** and we'll take it from there. The 10% benefit will be reflected on their final invoice - for all applicable services.

Phone Ahead Service & Courtesy Shuttles are available at all Sullivan Tire & Auto Service locations.
